

How to Clear a List of Data:

(Can be practiced after completing any problem)

- You currently have a list of data in one or more of your Lists

Now in the calculator...

STAT – ENTER (to select 1:Edit)

⇒ (Right arrow if needed to the column of choice)

↑ (to be on top of the list)

CLEAR -- ↓ (This will clear the entire list of data)

Repeat for each column you need cleared out.
