How to Complete Assignments for this Class

To complete assignments for this class, log into MyMathLab (www.mymathlab.com) with your username and password. Select our class.

In the menu on the left, click Assignments, then click the dropdown buttons All Assignments, All Chapters, and Show All.

The due dates for all assignments are in the left column beneath Due. Since they have been sorted chronologically, work your way from top to bottom.
Study Plan Assignments
Eventually, you will reach a Study Plan assignment (indicated by a purple ring). When you click such an assignment, you’ll see a window like this one:

Begin by completing problems in the “Quiz Me” area.

Each Quiz Me consists of up to four problems associated with that learning objective, ranging from easy to hard. If your score on those problems is 75% or higher, you earn a Mastery Point (MP). If your score on those problems is not 75% or higher, the “Quiz Me” option becomes unavailable until you complete at least one Practice problem correctly. (I recommend you choose the problem(s) you got wrong on the Quiz Me.) You must earn all available mastery points (the number is different for every section) to earn more than one attempt at the next step, a section Mastery Quiz.
Mastery Quizzes
Click Assignments in the menu on the left side, and then select the Mastery Quiz.

You can take the Mastery Quiz as many times as you’d like, and the highest score will count. However, only your first attempt at a Mastery Quiz is “free.” Any subsequent attempts are only unlocked if you earned the required number of Mastery Points (MPs) in the previous step.

You Have a Choice
Depending on the kind of student you are, you have a choice for how you complete your homework:

<table>
<thead>
<tr>
<th>If you want to deeply learn College Algebra and your goal is to earn an A or B in the class, follow these steps for each section...</th>
<th>If you just want to pass College Algebra and your goal is to earn a C in the class, follow these steps for each section...</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Complete the homework with a score of 95% or higher. You can attempt each problem more than once.</td>
<td>• Complete the homework with a score of 85% or higher. You can attempt each problem more than once.</td>
</tr>
<tr>
<td>• In the Study Plan, earn enough Mastery Points to unlock unlimited attempts at the Mastery Quiz.</td>
<td>• Skip the Study Plan.</td>
</tr>
<tr>
<td>• Take the Mastery Quiz as many times at it takes to earn a score of 85% or higher.</td>
<td>• Take the Mastery Quiz and do your best. You’ll only get one attempt.</td>
</tr>
</tbody>
</table>
