MAC 1105C: Corequisite College Algebra
Fall 2019

Contact Information

| Professor: | Darren Lacoste |
| Office: | Building 4, Room 232 |
| Office Hours: | See website (link below) |
| Phone: | 407.582.1087 |
| E-Mail: | dlacoste@valenciacollege.edu |
| Website: | http://frontdoor.valenciacollege.edu/?dlacoste |

Class Days and Times (Circle Yours)

| CRN 10213: | Class Mondays, Wednesdays 12:00p – 2:15p in 9-123 |
| CRN 10223: | Class Mondays, Wednesdays 3:00p – 5:15p in 9-123 |

Catalog Course Description:
MAC 1105C Corequisite College Algebra
Prerequisite: None

Course based on the study of functions and their role in problem solving. Topics include graphing, the linear, quadratic, and exponential families of functions, and inverse functions. Students will be required to solve applied problems and communicate their findings effectively. Technology tools will be utilized in addition to analytical methods. Gordon Rule course. Minimum grade of C required if MAC 1105 is used to satisfy Gordon Rule and general education requirements.

Book Material (In Order Presented):
Chapter R: Factoring and Rational Expressions
Chapter 1: Radical/Absolute Value Equations, Linear/Compound/Absolute Value Inequalities
Chapter 2: Distance/Midpoint Formulas, Circles, Functions, Average Rate of Change, Lines, Library of Functions, Transformations, Properties of Functions, Piecewise-Defined Functions, Combining and Composing Functions
Chapter 3: Quadratics, Variation
Chapter 4: Inverse, Exponential and Logarithmic Functions

Course Grading Percentages:
Homework (ALEKS Pie Progress, Objectives, Scheduled Knowledge Checks): 20%
Chapter Tests: 60% (each worth the same weight)
Cumulative Final Exam: 20%

Course Grading Scale:
End-of-term averages will be rounded to the nearest percent. If your rounded weighted average is...
...90 and above, you’ve earned an A
...80 to 89, you’ve earned a B
...70 to 79, you’ve earned a C
...60 to 69, you’ve earned a D
...0 to 59, you’ve earned an F
**Required Materials:**

**ALEKS Code for Online Homework:** We will be using software called ALEKS. An access code is required to access the software. The software includes an e-book (the electronic version of the textbook listed below). We will connect to ALEKS on the first day of class using two-week free access, but you will need to pay for permanent access before the free access expires. Access codes are available in the Valencia Bookstore for $97.30 or online at aleks.com for $73.20. Online payments require a credit or debit card.

**Lecture Notes:** I will send you my lecture notes through Canvas. You must have printed or electronic copy with you during every class session. (A printed copy is strongly recommended.)

**Scientific Calculator:** A scientific calculator that does not perform symbolic algebra is required. (A calculator with “CAS” in the name is not allowed. A graphing calculator is not allowed.) The TI-30XS Multiview is recommended because of its ability to create structures for fractions, radicals and the like (called Math Type). If you are receiving financial aid, it may be possible to utilize some of your funds to purchase your calculator. Check with the financial aid office for more information. You can borrow a scientific calculator from the Math Center (Room 7-241) until you purchase your own. Borrowed calculators are due back after five hours or at closing time, whichever comes first.

**Recommended Materials:**

**Supplies:** Blank notebook paper and/or graph paper and a three-ring binder with tab sections (or its equivalent) are recommended.

**Forbidden Materials:**

No pens are allowed (unless they are erasable pens).
**Anticipated Workload:**
Because this is a corequisite class, there will be a wide variety of skills (or, in some cases, missing skills) in the classroom. Because of this, the workload for each student will be different. Most students will require 6 to 7 hours per week outside of class time, but some students may require much more. Talk to your instructor often about how many hours you should be spending each week on this course.

**Attendance Policy:**
Your attendance in class is mandatory. You will log in to the urHere computer each class day. You start the semester with 8 attendance points. Each day you are absent, the computer will subtract 2 attendance points. Each day you are late, the computer will subtract 1 attendance point. Each day you leave early, the computer will subtract 1 attendance point. If your number of attendance points ever reaches zero, I reserve the right to withdraw you from the class. It is your responsibility to find out about announcements and changes, if any, if you are absent, arrive late, or leave early.

**Pencasts:**
Throughout the semester, each unique lecture will be recorded using a Livescribe “smart pen” and uploaded to my website as a “pencast.” These pencasts are very powerful. If you need to experience or re-experience something that was done in class, you can jump to that part of the lecture and see/hear it. You can even get back lost attendance points by following the instructions on my website and watching the relevant pencast.

**Online Assignments Due Dates:**
Generally speaking, assignments for this class are grouped into weeks, and each one is due on a Saturday. Test review assignments, however, are due on test days (Mondays). This includes the final exam.

**Contacting Me Electronically:**
Whenever you contact me electronically, always include your full name and your class days/start time. If you choose to email me, remember: the word “mail” is not part of my email address!

**Websites and Apps That “Do” Math**
There exist websites and apps that “do” math problems for us. Do not use them. Instead, use help resources that can provide an explanation and/or guidance and therefore ensure that learning is happening, such as a one-on-one appointment with me. See the “Math Assistance Outside of the Classroom” section of this syllabus for several other great suggestions.

**Testing Center Information:**
The Testing Center, located in 11-142, allows you to take exams early or outside the classroom (with prior instructor approval). You must arrive at least one hour before closing to take an exam there. The Testing Center’s hours are listed on its website:
http://valenciacollege.edu/learning-support/testing/hours.cfm
Testing Policies:
• You must complete each in-class test within the time allotted during the class period.
• Once you have seen a test, you may not leave the room unless you submit that test and say that you are done. A test can be as long as two hours and fifteen minutes (for the final exam only). If you do not believe you can be in our classroom for that length of time, speak with me after class about making alternate arrangements.
• All materials in your work area during testing, including calculator electronic memory, are subject to my thorough and unannounced inspection.
• No class-related content may be stored in calculator memory for use during tests.
• Scores on all tests will be rounded to the nearest percent, half percent, or tenth of a percent (at my discretion).
• If you miss the last chapter test or the final exam, I reserve the right to assign you a final course grade of “I” (Incomplete).

Academic Honesty:
You are expected to do your own work on knowledge checks, tests and exams. Providing information to another student or receiving information from another student is considered cheating. Using a website/app that solves math problems for you is also considered cheating. I reserve the right to determine the appropriate penalties within Valencia College’s academic honesty policies if you cheat.

Withdrawal Policy:
Always seek advice from the instructor or from an academic adviser prior to withdrawing from any course, as it may affect any financial aid you may receive or have other negative consequences. If you decide to withdraw, per Valencia Policy 4-07 (Academic Progress, Course Attendance and Grades, and Withdrawals), note that a student who withdraws from class before the withdrawal deadline of November 1, 2019 (11:59 pm) will receive a grade of “W.” A student is not permitted to withdraw after the withdrawal deadline. A faculty member may withdraw a student up to the beginning of the final exam period for violation of the class attendance policy. A student who is withdrawn by faculty for violation of the class attendance policy will receive a grade of “W.” Any student who withdraws or is withdrawn from a class during a third or subsequent attempt in the same course will be assigned a grade of “F.” For a complete procedure overview on Valencia Policy 4-07 (Volume 4, Policy 4 07 Academic…) please go to:
   http://valenciacollege.edu/generalcounsel/policy/default.cfm

Disorderly Classroom Conduct:
Disorderly conduct is behavior that is distracting to other students or the instructor, or that inhibits the learning experiences of other students. This includes texting/talking on the phone during class, using an electronic device (e.g. laptop computer, tablet) for non-class-related activities, arriving late/leaving early in a disruptive manner, monopolizing class discussions, using disrespectful language, etc. The first violation of this policy will result in a warning. A second violation will result in your being asked to leave the classroom. If you are ever asked to leave class, you may be permitted to return to future class meetings after speaking with me outside of class time. You may also be required to arrange a conference with another college official before attending class again.
Math Assistance Outside of the Classroom:

- **I hold office hours** to work with students. I am interested in your success in this course. Please come ask questions regularly! You can even schedule an appointment to meet one-on-one!

- **The LINE app** is a group chat that all students can and should connect to. In the app, you can chat with other students in class as well as upload pictures and videos of your math work so that you can receive help.

- **This class uses pencasts**, which are digital recordings of each class period. If you ever forget what was said or taught in class, or miss part or all of a class session, go to my website and listen to the pencast recording.

- **The West Campus Math Center** is in 7-240. There are several areas here where you can receive help.
  - While you are in the **Hands-On Math** learning area, you can receive one-on-one help with math concepts and problems using a hands-on learning approach. This special area utilizes tools and manipulatives to help you learn math.
  - While you are in **Math Connections**, you can receive one-on-one help with math concepts and problems. This area is only for certain math classes, and this class is one of them!
  - While you are in the **Open Lab**, you can receive help with math concepts and problems from one of the tutors in that area.
  - Take advantage of **study rooms**, a place where your study group can meet to work on math concepts and problems.

  The hours of the Math Center are listed on their website:

  http://valenciacollege.edu/learning-support/math/
  http://valenciacollege.edu/learning-support/math/hours.cfm

  It is important that you understand how you will receive help with math concepts and problems. The tutors have been trained to use techniques that help you become an independent learner. They have been instructed to guide you through the problem-solving process and utilize the materials you have available through your course. They may help you by asking open-ended questions, walking you through examples in your text, or (hopefully on rare occasions) using pencil and paper to show you how to solve a problem similar to one you are working on. Since their goal is to help you become an independent learner, they will let you do the work as much as possible. The learning process requires a regular investment of your time and patience is the key.

- **Smarthinking** is a tutoring service that is available for free over the Internet, 24 hours a day, 7 days a week. From www.valenciacollege.edu, log into Atlas. Click the Courses tab. In the middle, click Tutoring (online). Follow the on-screen instructions. You may ignore/close the window about the Smarthinking app if you want to. Select Work with a tutor. From the list, select Drop-in Session and Math. Select Algebra.

**No-Show Policy:**

Students registered for this class who do not attend any class sessions between and including August 26, 2019 and September 3, 2019, and who do not contact me to notify me of their situation, will be withdrawn as a “no-show.”
Office for Students with Disabilities:
Students with disabilities who qualify for academic accommodations must provide a Letter of Accommodations (LOA) from the Office for Students with Disabilities (OSD) and discuss specific needs with me, preferably during the first two weeks of class. The Office for Students with Disabilities determines accommodations based on appropriate documentation of disabilities. Contact information for the West Campus OSD is as follows:

http://valenciacollege.edu/osd/

Valencia Student Core Competencies:
Valencia’s Student Core Competencies are complex abilities that are essential to lifelong success. This course will help you develop and demonstrate the abilities to (1) think clearly, critically, and creatively; (2) communicate with others verbally and in written form; (3) make reasoned value judgments and responsible commitments; and (4) act purposefully, reflectively, and responsibly. Due to the nature of these global competencies, many math problems and activities will be presented in the context of an application. These applications will require students to select appropriate information from the problem and communicate effectively how to arrive at an appropriate solution for the problem.

Expected Student Campus Conduct:
Valencia College is not only dedicated to the advancement of knowledge and learning but is concerned with the development of responsible personal and social conduct. By enrolling, you assumed the responsibility for becoming familiar with and abiding by the general rules of conduct. Students who engage in any prohibited or unlawful acts that result in disruption of a class may be directed to leave the class; violation of any classroom rules or violation of Valencia’s rules may lead to disciplinary action up to and including expulsion from Valencia. You can find the Student Code of Conduct in the current Valencia Student Handbook.

Student Ombudsman
If you feel you have been mistreated by someone who works for Valencia College, and you don’t know of any other way to resolve your situation, consider speaking to a student ombudsman. A student ombudsman provides a safe and comfortable environment for students to discuss complaints, concerns, or problems privately. When appropriate, the office will initiate an informal intervention with the goal of facilitating a resolution that is acceptable to all parties involved. The ombudsman acts as an independent, impartial resource. If a matter cannot be resolved through this office, a referral will be made. When appropriate, the office can make recommendations regarding policy review and change. More information is available here:

https://valenciacollege.edu/students/disputes/academic/ombudsman.cfm

Life Help (BayCare)
BayCare Behavioral Health offers a wide range of outpatient services that can help individuals coping with behavioral health or chemical dependency issues. Counseling can help those who have struggled with emotional problems for years and those who find themselves in need of support to lead more productive and independent lives. Call the confidential toll-free number: (800) 878-5470. Sometimes life can be stressful. BayCare can help.
**Trash Bins:**
To minimize the production of plastic trash bags, many trash bins at Valencia College have been moved outside of the classrooms. Please bring your trash to those bins as you exit the class.

**Disclaimer:**
Changes to this course and syllabus may be made at any time, at my discretion. Should this occur, I will notify you of the changes.
