Online Course Environment
An online course is a course in which all of the content is delivered online at Valencia using the college-approved course management system. Online courses can provide opportunities for students to attend anytime from anywhere; however, the online student must take responsibility for his or her own learning. In any distance education program, the capacity for self-directed learning is crucial. While instructors and fellow students can provide some support, the online distance learner is expected to provide the internal motivation to manage his or her own learning during the course of study and have a basic grasp of Internet navigation skills and word processing skills. Canvas is used to deliver all instruction in this online course and the student is responsible to learn to use this delivery system. To assess your readiness for an online course, you are encouraged to take the self-assessment at http://valenciacollege.edu/ltad/students/are_distance.asp.

Students should visit the course at least every 48 hours to remain up-to-date on communications from the instructor and fellow students. Other tips can be found at the end of this document.

<th>Course Description</th>
</tr>
</thead>
</table>
| - A fully online course conducted in an asynchronous format.  
- This is an interactive course, not an independent study.  
|  
| How an Online Course Is Different from a Face-to-Face Course |  
| - It can feel overwhelming—especially in the first week. You’ve probably forgotten how ill-at-ease you felt when you first went to school, but taking an online class for the first time is very similar. It takes a while to learn your way around the “virtual campus”.  
- It fits more easily into your schedule. However, since you will do most of your work at home, it requires more self-discipline in setting aside time to study and participate in the course’s learning activities.  
- As in any course in which you want to do well, this course will take more time than you expect.  
- All reminders of when things are due are electronic. If you don’t access the course regularly, you may miss key assignments and due dates.  
- You will collect, reflect on, and respond to information that you have gathered. In an online course, responsibility for learning rests equally on participants and facilitators.  
- It works best when you enjoy using technology and interacting with others online.  
|  
| What You Will Need to Be Successful |  
| - Access to a computer with a high-speed connection.  
- Basic computer skills, such as the use of word processing software, sending email with attachments, uploading and downloading files from external sources.  
- A preference for visual or kinesthetic learning, because online learning is very visual and very “hands on the keyboard.” (If you don’t know your preference, take the online version of the Barsch Inventory to find out.)  
- An open-minded attitude, personal honesty, and a willingness to share your knowledge and ideas with others.  
- The belief that online learning is more convenient, but not easier than face-to-face learning.  
- The belief that quality learning can happen anytime and anywhere.  
- An interest in self-reflection.
